

Participant

Session 3

Camera 1 Workshop

Objective

This workshop will familiarize participants with basic camcorder operation

Time

45 minutes

Description

The facilitator will introduce the basic elements of the camera. A hands-on demonstration will be provided on how to use the camera kit.

Outline

Facilitators will demonstrate how to:

- Hold the camera to record steady shots
- Turn the camera on and off
- Use basic menu options
- Select the correct recording format
- Set Date and Time
- Plug in headphones
- Plug in microphones
- Mount camera onto tripods
- Understand the different inputs/ outputs
- Use automatic functions to record
- Use the zoom function
- Use shot gun and lavalieri microphones in appropriate situations
- Switch between VTR (playback) and camera modes
- View and delete clips
- Charge batteries with external charger and surge protector
